

TECHNOLOGY LEADERS IN PLASTIC CARD PERSONALISATION SYSTEMS

As a truly international company, Logika Technology Srl specialises in design, manufacture, supply and support of a full range of plastic card personalisation and match mailing systems.

Since its inception in 1989 the Logika brand has been synonymous with practical, market driven innovation and technological advances.

Under new and dynamic management Logika has adopted a measured policy of reinvestment in research and development.

Our ethos is to ensure our customers card issuance operations are ever more efficient, productive and profitable.

Products

Logika continue to manufacture and support tried and tested systems from the low cost, low volume LC540, through to the bureau workhorse LC700 embosser to the high volume, high end LC2000 Domi.Net modular systems.

Complemented by the TP950 thermal printer and the Mailer III match mailing system, the range is designed to satisfy all needs.
