

MERCURE SEALER

MERCURE ENVELOPE SEALING SYSTEM

This latest Swiss built, fully automatic envelope-sealing system provides speedy mail despatch due to the system's amazing sealing speed of up to 300 envelopes a minute.

FEATURES

- Operating Speed: 18,000 envelopes sealed per hour
- Seals effectively and quickly all usual formats from 90 to 250 mm width without waste-paper
- This machine works automatically and only requires the stacking of prepared envelopes
There is no need to open the flaps manually or hold or press on the piles of letters
- A large water reservoir with visible level, automatic outlet adjuster and self-cleaning moistening roller
- Adjustable moistening intensity
- Progressive speed regulation of the conveyor provides selectively adjustable output
- Small footprint
- Great build quality
- Superb price: performance ratio

BENEFITS

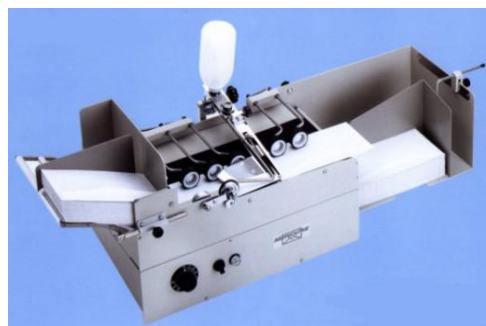

- Economical and ecological
- Simple and easy to operate
- Takes very little space
- Efficient
- Robust
