

# inTelm ail AM Feeder

The AM (Accumulator Mountable) Feeder from inTelm ail is designed to process complex mailing applications.

## **AM Accumulator Mountable Feeder**

The AM Feeder is designed either to be mounted over the in feed track of a plastic wrapping machine, or over a finishing machine, such as a binder or collator. Multiple page sets up to 25 pages can be accumulated and fed into the work stream.

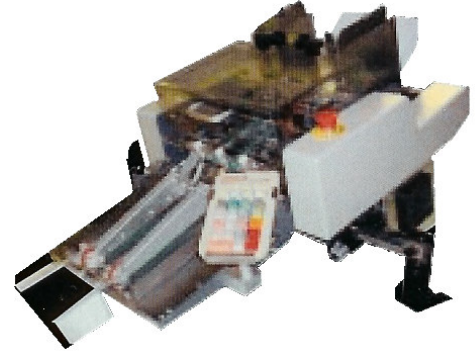

The inTelm ail system operating software provides control of the wrapping or finishing machine, and the wrapping or finishing machine, and accounted for. Options can enable insert selection, diverting etc.

The AM Feeder can be moved from machine to machine, if the machines are suitably prepared.

### Typical applications

- Use to feed address sheet onto product to be wrapped or add insert material to the pack.
- Use to include variable or fixed count personalised document sets or material to each pack.
- OMR, OCR, BCR, 2D or batch count
- Paper sizes A6 to A4

The true connectivity and proven versatility of inTelm ail intelligent mailing system modules and software provides solutions for any mail-processing requirement. inTelm ail's range of mailing equipment, whether used as stand-alone units or integrated into complete intelligent systems, can greatly expand your mail processing capabilities

### Technical Specifications

<b>Feed &amp; Read Rate</b>	65,000+ A4 sheets p.h.
<b>Form Sizes – min.</b>	90 x 180 mm
<b>Form Sizes - max.</b>	210 x 300 mm
<b>Paper Weights</b>	60 - 200 gsm
<b>Power Requirements</b>	220-250 volts. 50 - 60 Hz single phase
<b>Power Consumption- max.</b>	0.60 Kw
<b>Heat Emission</b>	170 J/S
<b>Sound Level (with covers)</b>	75 dB
<b>Dimensions</b>	L- 790 x W - 510 x H - 450 mm
<b>Weight</b>	90 Kg

## Product Information

### Standard Machine Features

- Modular unit mountable on many machines
- Between suitable machines between suitable machines
- Heavy Duty self powered unit
- Double sheet detectors
- Easy set up for form size
- Positive sheet separation and feeding
- Solid heavy duty machine mounting
- Non-contact belts for smear free accumulating

### Standard Software Features

- Built in computer
- Real time operating software
- OMR reading front or back of form
  - Sheet sequence checking
  - Variable multiple sheet set control
- Fixed set count by counter

### Optional Software Features

- Barcode reading system
  - Sheet and set sequence checking
  - Variable multiple form set control
  - Identify and track individual sheets
- OCR reading system
- Database control
- Data output to on-line printer
- Monitoring and Reporting work flow
- Network ready

### Machine Options / Attachments

- Additional mounting kits
- Multi- purpose mobile feeder stand for storage and transport, etc
- Mobile stand used for off-line feeding applications
