

inTelm ail IJP Feeder

The IJPF (Ink Jet Printer) Feeder from inTelm ail is designed to suit medium to high volume address or data printing applications.

IJPF Ink Jet Printer Feeder

The IJPF system is self-contained for stand-alone use and includes a highly efficient cut-sheet feeder and a built in vacuum transport.

Provision is made to mount one or more inTelm ail Ink Jet Print heads, with computers and inTelm ail operating software.

Typical applications

- Use with ink jet systems to address or overprint cards, envelopes or wrappers with fixed or variable information, return address, agent name, consecutive numbers, logos and graphics.

IJPF with computer

The true connectivity and proven versatility of inTelm ail intelligent mailing system modules and software provides solutions for any mail-processing requirement.

inTelm ail's range of mailing equipment, whether used as stand-atone units or integrated into complete intelligent systems, can greatly expand your mail processing capabilities.

Technical Specifications

Material Size - Min. 76 x 127 mm

Material Size - Max. 300 X 420 mm

Paper Weights 60 gsm sheet up to 25.4 mm thick

Power Requirements 220 – 250 volts,
50 – 60 Hz, single phase

Power Consumption - max. 0.84 Kw

Heat Emission - max. 200 J/s

Sound Level (with covers) 65 dB

Dimensions L-1010 x W-510 x H-950 mm

Weight 70 Kg

When equipped with inTelm ail Ink Jet Printer:

Print Speed and Quality

600x600 dpi Up to 635 mm/s (25 ips) 7500 A4 p.h.

600x300 dpi Up to 1270 mm/s (50 ips) 15,000 A4 ph.

600 x 150 dpi Up to 1900 mm/s (75 ips) 22,500 p.h.

Image Depth Single head - up to 38mm deep, up to 4 heads can be used

Image Length Up to 292 mm

intemailUP Feeder

Product Information

Standard Machine Features

- Mobile, unit plug-in unit
- Small footprint
- Top loading hopper
- Belt type friction feeder
- Unique sheet separator
- Consistent and accurate feeding
- Easy set-up and change over
- Push button for single or continuous feeding
- Push button for emergency stop
- Variable speed

Standard Software Features

- Prepared to interface one or two Ink Jet Print heads
- Computer system with operating software
- Settable stop counter/run counter

Optional Software Features

- When equipped for inTemail Ink Jet Printer – one or more ink jet heads, computer and software
- exploreneT database
- Report printer
- Video camera verification system
- Bar code reading system to check print quality and sequence

Machine Options / Attachments

- Conveyors and stackers
- High Capacity Loader
- Diverter to receive double feed
- Diverter to receive misreads
- Continuous forms attachment c
- Mounting to take bar code readers
- Mounting to take video cameras
